Kottayam, Kerala

Skills

JavaScript, Data Structures

MongoDB, Mongoose, PostgreSQL

REST APIs

Express, Node JS, ES6

React JS, MySQL

HTML, CSS

Postman, GIT

Bootstrap, Tailwind

Redux

Education

Bachelor of Technology in Mechanical Engineering

Mahatma Gandhi University

2010-2014

Kottayam, Kerala

Experience

Full Stack Developer

Vyqda Technologies

May 2024 - Present

PROJECT

HsasGroup

- Developed a fully functional property website for properties and their related services using **React, Bootstrap, Node.js, JavaScript, Express, MySQL, Razorpay** and **REST APIs**.
- Integrated online payment functionality using **Razorpay**, ensuring secure and reliable transactions.
- Implemented the project using the **MVC** (Model-View-Controller) architecture, enhancing maintainability and scalability.
- Used **Nodemailer** for implementing email services.
- Developed an intuitive admin dashboard allowing for seamless management of the project for the admins.
- Integrated Cron Jobs

Trainee Mern Stack Developer

Brototype

Jan 2023 - December

PROJECTS

SpecsMart

- Developed a fully functional eCommerce website for a spectacles shop using **HTML, CSS, Bootstrap, Node.js, JavaScript, Express, MongoDB, Razorpay** and **REST APIs**.
- Utilized the **EJS** for making the project dynamic one
- Integrated online payment functionality using **Razorpay**, ensuring secure and reliable transactions.
- Implemented the project using the **MVC** (Model-View-Controller) architecture, enhancing maintainability and scalability.
- Used **Nodemailer** for implementing email services.
- Developed an intuitive admin dashboard allowing for seamless management of key eCommerce elements.
